Sexy Sci-fi fantasy!

CRASH COURSE

Crash Course is a fast-paced space adventure about Crash, a young man with a big dick and nothing to lose, and his robot sidekick Rockstar.

It's a big galaxy filled with hot and hunky guys, spaceships, laser guns, and bounty hunters! Join Crash on the run as he tumbles in and out of beds, gunfights, and space battles. The biggest question is: Is Crash running toward the future, or away from the past?

A chance encounter with wily but well-hung Prince Kalen sets Crash on a course that will keep him moving but may draw the wrong kind of attention.

With the help of Rockstar—a truly open source robot with the ability to jump from machine to machine—Crash is prepared to take on anything or anyone that even tries to get in his way.

He never backs down from good sex or a good fight, and Crash has plenty of both in his life!

Written by Johnny Murdoc and illustrated by TJ Wood with colors by Lizz Ventura, Crash Course is science fiction with a hard on!
